

## Leadership Excellence Report

The Leadership Excellence Report (LER) is a special report format for leaders. It provides an overview of the current state of development of leadership skills based on the Leading Simple® system. In addition to the standard self-image and the perception of others, it provides additional impulses and makes leadership responsibility transparent. The LER was developed by profilingvalues in cooperation with the Grundl Leadership Institute.

### THE BENEFITS AT A GLANCE:

- The LER is an aid to reflect more deeply on one's personal leadership skills.
- The LER draws an objective picture of leadership competencies and induces one to recognize their blind spots.
- The LER incorporates the participant's current phase of life and thus shows the current „shape“ in which the leader finds themselves.
- We recommend using the LER in the area of leadership development as an initial measurement before trainings or coaching.
- After a training module / development measure has been carried out, its success can be assessed by repeating the survey.
