

The Logo Function – Your Logo and the profilingvalues Report

Dear certified users of profilingvalues,

Many of our partners want to incorporate their personal company logos in the report. We now offer this service to you.

Since every logo is designed individually and has a unique resolution and size, we need to involve our graphics designer and programmer in this process. They guarantee excellent quality while ensuring standards. This outlay leads to the price mentioned below. Once the function is installed, no additional costs will incur. Furthermore, you can simply switch the Logo Function on or off.

In summary:

Price: € 199 (plus VAT)

Duration until release from date of order: approx. 1 week

Requirements: Logo as a vector file, alternate formats are possible but influence the processing time

Please place your request with Tilman Scheckenbach at
tilman.scheckenbach@profilingvalues.com or +49 (0) 89 78 74 75 64

Enjoy using and having success with profilingvalues
