

# Teams or Aggregating Profiles

Many of you already know that our Team Report and Team Overview can summarize up to 50 people in an attractive format to illustrate the behavior of a group

But what some of you might not know is that other report formats in our portfolio, e.g Sales Report, Balance Report and Leadership Excellence Report, are also **applicable for teams** and can be aggregated for several people!

How do I create these group reports?

Sign on to your back office and open the Profiling register. Select the members of a group by marking the TEAM button to the left of the access key and then click "CREATE TEAM-REPORT."
